

HAN JEEUNG

AI Service Planner | Product & Business Strategy | Game & Esports Content | Digital Marketing

Seoul, Republic of Korea | +82-10-9873-6924 | moseshje@naver.com

PROFESSIONAL SUMMARY

Service and business planner with hands-on experience spanning user research, service structure, UX/UI planning, MVP development, data analysis, digital marketing, sales, and emerging AI technologies. Independently planned and executed the “Senior Haru4” service from market and user analysis through business modeling, UX/UI, and pre-launch MVP. Brings approximately 20 years of hands-on experience with football games from Winning Eleven/PES to eFootball, as well as long-term StarCraft experience, providing a strong player perspective on competitive systems, online competition, content updates, and esports engagement. Interested in connecting games, audiences, content, and live/online experiences.
